## BUILDING END-USE

Fitness Center

This high school facility includes a 1,100-seat gymnasium, a 2,300 sf fitness center, a nutrition lab, an instructional kitchen for the school's farm-to-fork programs, classrooms, offices, and a training room. The tall glass windows allow for a naturally lit lobby to welcome visitors. The latest contemporary materials and finishes, such as metal panels, stucco, glass, and architectural panels, wrap the exterior.
