

Gateway Energy Storage

LOCATION
Otay Mesa, CA

SIZE
68,000 sf

WALL SYSTEM
R-Panel

ROOF SYSTEM
B-Deck

BUILDING END-USE
Battery Storage Facility

Gateway Energy Storage is a lithium-ion energy storage facility in Otay Mesa, CA, providing energy storage services for the wholesale energy market. The project includes five custom pre-engineered metal buildings totaling 68,000 sf used for battery storage that contain up to 500 MW of wholesale energy storage. CBC provided the framing, girts, and sheeting for 34' tall parapet walls at the rear end walls. All five buildings are built adjacent with a seismic gap.
